Dylan Galvin grew up with a near obsessive love of movies and music in a sleepy town near Hollywood, Maryland. When he moved to the much bigger Hollywood, California he combined his love of both. Often inspired by movies from the 80s and 90s, his music is rooted in nostalgia and cinema, frequently emphasizing the importance of the story and lyrics.

Building on the success of his two EPs and inspired by his time at Berklee College of Music, where the legendary Paul Simon handpicked him out of a crowd of his peers, Dylan Galvin's relentless dedication to authentic storytelling and lyrics is what resonates with listeners. He contributed to the score of the recent documentary "The Essential Church", which peaked at the #1 spot in "documentaries" in the Apple TV store. He has been featured in PASTE Magazine, Voyage LA and Kings of A&R and has toured the US from coast to coast playing for the Baltimore Ravens at M&T Bank Stadium and celebs like Dylan McDermott and Fabio in Los Angeles, CA
